

Logistics Solutions

We assume responsibility for the running and managing of client-specified logistic processes and risks to enable our clients to focus on their core business.

Our solutions reduce costs while simultaneously improving service levels. As a level 2 BBBEE contributor with an excellent track record in safety and risk mitigation, we work from a solid base of reputable initiatives.

We implement custom-designed processes that expand the capacity and utilisation of existing resources and assets by improving productivity and efficiency.

Our service level agreement contracts have clearly specified outcomes based on a scientific rate model which incorporates service levels, deliverables planning, costing, assets, stock and supervision

Our solutions cover:

- Supply chains - transport, delivery, local distribution and fleet management.
- Warehousing - stock control, receiving, dispatch, loading and storage.

We ensure sustainable strategic business partnerships with our clients by:

- Maintaining a clear, realistic view of our clients' logistics processes as crucial to the success of their businesses as a whole.
- Sharing with clients in the financial gains of business process optimisation.

We offer expert risk control integrating finances, assets, operations and people:

- Handling of HR functions such as payroll and leave, labour relations and legal compliance plus expert consulting in industrial relations and labour law.
- Deployment of experienced qualified teams under outcomes-based management.
- Implementation of flexible world-class methodologies, technologies and IT systems.
