

Public Sector Solutions

Assisting public and private sector to maximise the utilisation of existing resources and capacities by delivering organisational, systems and process optimisations.

We are focussed on improving service delivery, financial performance, key stakeholder and customer satisfaction.

Carrus Tshenolo is a black-owned consulting company providing integrated tailor made consulting solutions in the fields of municipal services, fleet and waste management.

We specialise in revealing to our clients their economic strengths and the possibilities for optimal utilisation of their resources, assets and human capital. We actively facilitate transfer between our consultants and the client team to ensure client capacity is developed through our interaction. In collaboration with our clients we design unique service improvement strategies, based on an analysis of their current status

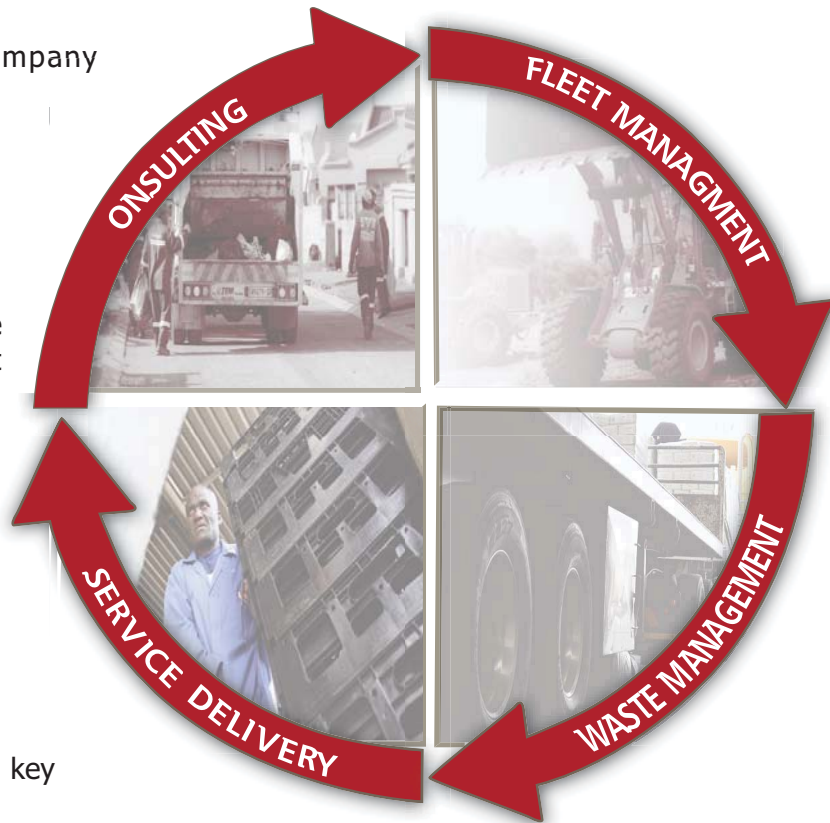

We can facilitate high level turnaround, by providing managed turnkey solutions. We also advise our clients on how to improve their operations, systems and procedures.

We support our clients by assisting with the following key milestones:

- **Reducing operational and financial risk**
- **Improving delivery internally and/or to external clients.**
- **Crafting and implementing strategies and policies in accordance with municipal legislation and regulations.**

Carrus Tshenolo
